ESTABLISHED SANCTIONING GUIDELINES

This document serves as sanctioning guide, but sanctions may ultimately be applied at the discretion of the hearing body (e.g. conduct officer). Additional sanctions other than those listed in this document may be applied; all sanctions are outlined in the [Student Code of Conduct](#). For cases involving multiple charges and/or levels, the appropriate hearing body (e.g. conduct officer) will determine the appropriate sanctions.

Sanctions are designed to achieve the following goals:

- To reestablish order while considering the common good, which sometimes necessitates the temporary or permanent removal of the Respondent from the University community;
- To repair the harm for those impacted by the Respondent;
- To restore the Respondent to good standing within the University community, provided the safety of the community is not jeopardized by the individual’s presence; and
- To address the cause of the violation and to allow Respondents to reflect upon their actions and their impact on themselves, others, and the University community.
